

CE800 Elliptical Trainer

SPIRIT FITNESS

A Heritage of Quality | The Spirit of Innovation

CE800 Elliptical Trainer

The **CE800** was specifically engineered for the commercial environment, from its heavy duty steel frame to its durable powder coat paint finish. The design focuses on convenience, comfort, reliability, and aesthetic appeal.

Other design elements include:

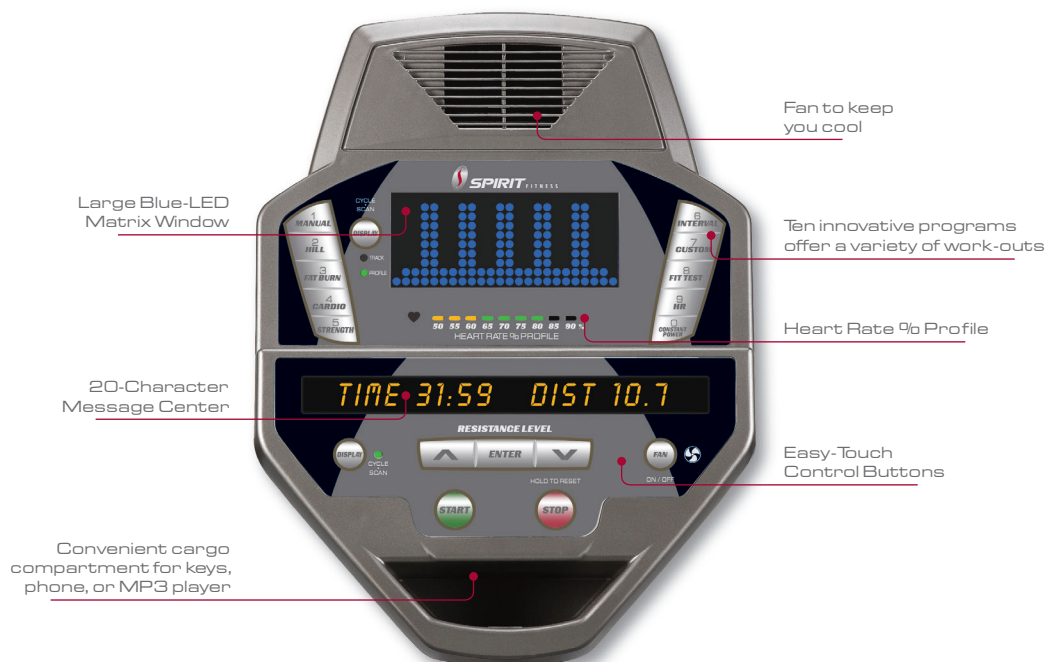

- A smooth, quiet 20" stride, which is the optimal distance for the average user
- Dual rollers on each pedal arm for a sturdier base; the rollers are shielded for safety
- Generator powered console means there is no need for electricity
- 2° of inversion at each foot pedal places the user in an anatomically correct position
- 40 levels of resistance to satisfy the needs of beginners or advanced exercisers
- C-safe Power and Communication capabilities for A/V control and virtual racing interaction with WebRacing® software

This model is very appealing to users that value a smooth stride and a weight bearing workout, without the impact. The console is identical to the **CR800** & **CU800** bikes, which makes programming very familiar when using any of the Spirit Fitness C series products.

CE800 w/
TV Bracket
Bracket sold separately

CE800 Elliptical Trainer

As with any product, a major importance is the user interface. We focused on making everything easily accessible and comfortable: A storage tray for a phone, keys, or an MP3 player; ergonomically friendly pulse grip handles for a more natural hand position, and a Turbo cooling fan to keep your clients cool and encourage them to workout longer.

A quick press of a button and your clients are off on a walk, a run, or one of the many specialized workouts such as the Fit Test or Constant Power programs. Our large, easy-to-read console gives your clients constant feedback from calories to distance to time.

Equipment Specifications

CONSOLE	Large Blue-LED Matrix w/ 4 Separate LED Info Windows, a 20-Character LED Message Center; LED Heart Rate Bar, & an Integrated Reading Rack
PROGRAMS	Manual, Hill, Fat Burn, Cardio, Strength, Interval, Fit Test, HR, Constant Power; Custom
